# INDEX VOLUME 39

<i>Abian, A.</i> , Definition and construction of free algebras revisited .....	331
<i>Alpár, L.</i> , On the linear transformations of series summable in the sense of Cesaro .....	233
<i>Artikis, T.</i> , A note on certain power mixtures .....	69
<i>Aversa, V.</i> and <i>Laczkovich, M.</i> , Extension theorems on derivatives of additive interval functions ..	267
<i>Balog, A.</i> , Statistical theorems about the embeddings of Abelian groups into symmetrical ones ..	117
<i>Beazer, R.</i> , Affine complete Stone algebras .....	169
<i>Bleyer, A.</i> and <i>Preuss, W.</i> , Spline function approximations for solution of differential equations with retarded arguments .....	315
<i>Chung, K. L.</i> , A cluster of great formulas .....	65
<i>Dale, L.</i> , The structure of monic free ideals in a noncommutative polynomial semiring .....	163
<i>Ezeilo, J. O. C.</i> , A Leray—Schauder technique for the investigation of periodic solutions of the equation $\ddot{x} + x + \mu x^2 = \varepsilon \cos \omega t$ ( $\varepsilon \neq 0$ ) .....	59
<i>Gruber, P. M.</i> und <i>Ramharter, G.</i> , Beiträge zum Umkehrproblem für den Minkowskischen Linearformensatz .....	135
<i>Gyires, B.</i> , Contribution to the Fourier analysis of matrix-valued functions .....	295
<i>Hannick, F. T.</i> , Special classes of generalized coherent rings .....	185
<i>Heyman, G. A. P.</i> , <i>Jenkins, T. L.</i> and <i>le Roux, H. J.</i> , Variations on almost nilpotent rings, their radicals and partitions .....	11
<i>Hiremath, V. A.</i> , Cofinitely generated and cofinitely related modules .....	1
<i>Jaworowski, J.</i> , $G$ -spaces with a finite structure and their embedding in $G$ -vector spaces .....	175
<i>Jayaram, C.</i> , Quasicomplemented semilattices .....	39
<i>Jenkins, T. L.</i> , <i>Heyman, G. A. P.</i> and <i>le Roux, H. J.</i> , Variations on almost nilpotent rings, their radicals and partitions .....	11
<i>Joó, I.</i> and <i>Stachó, L. L.</i> , A note on Ky Fan's minimax theorem .....	401
<i>Karnik, S. M.</i> and <i>Willard, S.</i> , Hereditary natural covers and subspaces of $\Sigma_R$ -spaces .....	347
<i>Korolczuk, Halina</i> , On $\ast$ -simple rings .....	363
<i>Kroó, A.</i> , Best $L_1$ -approximation of vector valued functions .....	303
<i>Laczkovich, M.</i> , On additive and strongly derivable interval functions .....	255
<i>Laczkovich, M.</i> , Continuity and derivability of additive interval functions .....	393
<i>Laczkovich, M.</i> and <i>Aversa, V.</i> , Extension theorems on derivatives of additive interval functions ..	267
<i>Laczkovich, M.</i> and <i>Petruska, G.</i> , Averaging processes on function classes .....	279
<i>Leindler, L.</i> , Derivative functions and strong approximation of Fourier series. II .....	217
<i>Leindler, L.</i> , On relations of coefficient-conditions .....	409
<i>le Roux, H. J.</i> , <i>Heyman, G. A. P.</i> and <i>Jenkins, T. L.</i> , Variations on almost nilpotent rings, their radicals and partitions .....	11
<i>Losonczy, L.</i> and <i>Maksa, Gy.</i> , On some functional equations of the information theory .....	73
<i>Maksa, Gy.</i> and <i>Losonczy, L.</i> , On some functional equations of the information theory .....	73
<i>Martinez, M. E.</i> and <i>Salce, L.</i> , A homological characterization of certain subgroups .....	143
<i>Mercer, A. McD.</i> , A class of biorthogonal expansions arising from a Volterra operator equation ..	339
<i>Misra, N.</i> , On the rapidity of convergence of Hermite—Fejér interpolation based on the roots of Legendre polynomials .....	149
<i>Misra, P. R.</i> , On isomorphism theorems for $C(X)$ .....	379
<i>Moór, A.</i> , Über die aus einem gemischten Tensor gebildeten Otsukischen Räume .....	225
<i>Móricz, F.</i> , Lebesgue functions and multiple function series. II .....	95
<i>Nagy, P. T.</i> , On bundle-like conform deformation of a Riemannian submersion .....	155
<i>Pandey, P. N.</i> , On a Finsler space of zero projective curvature .....	387

<i>Peherstorfer, F.</i> , On an extremal problem for nonnegative trigonometric polynomials and the characterization of positive quadrature formulas with Chebyshev weight function .....	107
<i>Peligrad, Magda</i> , A criterion for tightness for a class of dependent random variables .....	311
<i>Petruska, G. and Laczkovich, M.</i> , Averaging processes on function classes .....	279
<i>Pham Ngoc Anh</i> , A note on linearly compact rings .....	55
<i>Preuss, W. and Bleyer, A.</i> , Spline function approximations for solution of differential equations with retarded arguments .....	315
<i>Ramharter, G. und Gruber, P. M.</i> , Beiträge zum Umkehrproblem für den Minkowskischen Linearformensatz .....	135
<i>Rayar, Mary</i> , On small and cosmall modules .....	389
<i>Richter, W.</i> , A short note about pointwise divergence of Jacobi expansion for continuous functions .....	337
<i>Riemenschneider, S., Sharma, A. and Smith, P. W.</i> , Convergence of lacunary trigonometric interpolation on equidistant nodes .....	27
<i>Salce, L. and Martinez, M. E.</i> , A homological characterization of certain subgroups .....	143
<i>Sands, A. D.</i> , Weakly homomorphically closed semisimple classes of subidempotent radicals .....	179
<i>Sharma, A., Riemenschneider, S. and Smith, P. W.</i> , Convergence of lacunary trigonometric interpolation on equidistant nodes .....	27
<i>Simon, P.</i> , Remarks on the shift operators with respect to the Haar and Franklin systems ...	251
<i>Smith, P. W., Riemenschneider, S. and Sharma, A.</i> , Convergence of lacunary trigonometric interpolation on equidistant nodes .....	27
<i>Stachó, L. L. and Joó, I.</i> , A note on Ky Fan's minimax theorem .....	401
<i>Stewart, P. N. and Wiegandt, R.</i> , Quasi-ideals and bi-ideals in radical theory .....	289
<i>Sunouchi, G.</i> , Absolute summability of Fourier series .....	323
<i>Tandori, K.</i> , Über ein Problem von B. S. Kašin .....	125
<i>Tandori, K.</i> , Bemerkung über die unbedingte Konvergenz der Orthogonalreihen .....	245
<i>Tandori, K.</i> , Bemerkung zum Gesetz der großen Zahlen .....	361
<i>Tóth, G.</i> , Harmonic submersions onto nonnegatively curved manifolds .....	49
<i>Totik, V.</i> , Comparison of "uniform" and "almost everywhere" summability properties .....	129
<i>Tran, V. N.</i> , Über das asymptotische Verhalten von Lösungen gewöhnlicher asymptotisch periodischer Differentialgleichungen mit zufälligen Parametern .....	253
<i>Turinici, M.</i> , Drop theorems and lipschitzianess tests via maximality procedures .....	17
<i>Tzintzis, G.</i> , An upper radical property and an answer to a problem of L. C. A. van Leeuwen and G. A. P. Heyman .....	381
<i>Vértesi, P.</i> , Hermite—Fejér type interpolations. IV .....	83
<i>Vértesi, P.</i> , On the almost everywhere divergence of Lagrange interpolation (complex and trigonometric cases) .....	367
<i>Vinsonhaler, C. and Wickless, W.</i> , Projective classes of torsion free Abelian groups .....	195
<i>Wickless, W. and Vinsonhaler, C.</i> , Projective classes of torsion free Abelian groups .....	195
<i>Wiegandt, R. and Stewart, P. N.</i> , Quasi-ideals and bi-ideals in radical theory .....	289
<i>Willard, S. and Karnik, S. M.</i> , Hereditary natural covers and subspaces of $\Sigma_R$ -spaces .....	347
